

Supporting Energy Education in Pinal County

BrightNight at work in our project communities

How we helped

BrightNight is proud to be a trusted partner to the Pinal County, Arizona community of our Box Canyon Solar Project. Understanding the importance of direct community impact, BrightNight partners with Central Arizona College to establish a scholarship program. This program funds the completion of the Commercial Electrician Installer Program for 10 students each year over the next five years. The initiative is designed to provide valuable education and training, fostering local talent and enhancing workforce development. By investing in education, BrightNight ensures that the benefits of their solar project extend beyond energy production.

Project

300 MW Solar Project
"Box Canyon"

Location

Pinal County, AZ

Impact

5-year scholarship
commitment for
electrician program

Our Box Canyon community

BrightNight's work in the Box Canyon project community is a vital part of our mission to be a trusted and valued member of the community. Our impact is ongoing, as we strive to support local initiatives and foster strong community ties. In addition to salvaging and relocating native species, we support local college education funds, many area businesses, and contribute millions in critical tax revenue. This includes a significant contribution to the ASLD K-12 education trust. Through these efforts, BrightNight demonstrates its commitment to sustainable development and local enrichment in every community our projects call home.

BRIGHTNIGHT
Power when you need it
