

# Helping those struggling with food insecurity

## BrightNight at work in our project communities

### How we helped

BrightNight demonstrated its commitment to community support and local agriculture through its Gage Solar Project by partnering with Magney Legacy Ridge Farm and a local food bank. After engaging with community members, BrightNight identified a significant need to improve access to fresh produce for individuals facing food insecurity. In response, BrightNight facilitated a regular delivery of fresh produce from Magney Legacy Ridge Farm to the local food bank, ensuring a consistent supply of nutritious food for those in need. This initiative not only addressed food insecurity but also supported local farmers by providing a stable market for their produce. The collaboration underscored our innovative approach to community engagement, emphasizing sustainability and social responsibility. By connecting local resources with community needs, BrightNight reinforced its role as a proactive and caring corporate citizen.

### Project

240 MW Solar Project  
"Gage"

### Location

Ballard County, KY

### Impact

Support for local farms  
and those struggling with  
food insecurity

### Our Gage community

At BrightNight, our efforts in the Gage project community are central to our mission of being a reliable and integral part of the community. Our ongoing impact includes supporting local causes and cultivating robust community connections. In addition to helping fight food insecurity, we have supported a local organization supporting the recovery of human trafficking victims, prioritized patronage of many local small businesses, and contributed millions in critical tax revenue. These initiatives highlight BrightNight's dedication to sustainable growth and local enhancement in every community where our projects are located.
